Howard Stern: Trump’s candidacy for president was a ‘publicity stunt’

…is there any question now as to this fraud? Impeachment is without question!, Madam Speaker…Madam Speaker said she would pray for the President, that she would pray for America, thoughts and prayers Madam Speaker? thoughts and prayers instead of doing your job as you swore you would…O-I forgot, “impeachment is not on the table” from years ago…just who are you protecting Madam Speaker?…

…earlier today 5/24/19 I tried to send an email to a friend in Belgium, the email was blocked by barracuda.org software and tagged as spam, I am being blocked from using my account at mail.com…I have been falsely tagged as a spammer…there may be a time lag in responding to your emails until this matter is fixed, I am sorry for any delays…I have contacted the parties involved and have asked for a remedy a.s.a.p., we will see…I don’t not take this lightly, nor should anyone...(see comment posted on the “about page”-thanks)…GWS

Memorial Day USA 2019
Members of my family fought in the same regiment with members of the Bush family during the Revolutionary War. First Lieutenant Beekman Hoffman fought on the decks of the USS Constitution during the same war. His sword is on display at the museum. My Great Grand Father James Satchell fought in the battle of Verdun in France during WW1. My Grand Father, J.O. Hoffman was a Commodore during WW2. My cousin FDR fought very hard during WW2, as we all know. My Mother and my Father were in service during WW2. I am not aware of anyone in my family dying while in service for their country. For this reason I mourn all the more for the death of my country during this Memorial Day Weekend. They all fought, gave their best and survived the horrors of War for Freedoms real or imagined, for naught. This is my families blood, our DNA, this is who we are. Today, those in the seats of power do not do their sworn duties to uphold the Constitution or the Bill of Rights against the attack by a foreign country. America has always been at War, in one form or another since day one of landing on Turtle
Island. It is what we do, we kill things, big and small. But we run and hide and cower when attacked from the outside. The attackers it appears had some help from inside and we turn our heads and look the other way. All of those millions that have died since time began to advance America have died in vain. No one will defend the Constitution, members of my family signed both documents, both the Declaration of Independence and the Constitution for naught. They believed in America when others would not, for naught. I don’t mourn for those that died while in service, that is the price they were willing to pay. To pay with their lives. I mourn for us all today that are living because others were willing to pay the price and nothing is done to honor their sacrifice. After all of this living and dying and being of service to the Grand Experiment no one is willing to defend it anymore. There are those of scholarship who write about the Grand Experiment in depth, about the documents, the conventions, the debates before the Great Signings. They are in the weeds and cannot breathe. What of the Spirit? What drives someone to fight for a belief? Spirit. The spirit moves them to self-sacrifice. We have lost this spirit. It has become corrupt by many adverse influences. I mourn this Memorial Day weekend.
